EMPLOYMENT HISTORY

Product Design Lead

[ZOTECH DESIGNS](#) (FEBRUARY 2024 - PRESENT)

- I coordinate the internship program together with the CTO where we teach interns soft and technical skills. All our interns scored A grades in their projects and passed their HND or completed their B.Eng.
- We development digital products for all sectors that are functional and scalable.

Lecturer

[SHIBITS](#) - BUEA (MARCH 2025 - JUNE 2025)

- I taught the software engineering class. With them, I taught Information Systems which is a good introduction to relational databases and crafting entity relational diagrams.

Project Manager / Scrum Master

[CRYSTAL HOUSE AURORA](#) (MAY 2023 - JUNE 2025)

- I have worked very closely as an apprentice under Stephen Thompson who is a project manager residing in Aurora, Illinios in USA.
- I planned and saw the execution of projects for the company and during my time, we were able to optimize our main revenue stream and add two more. This increased the company revenue by more than 50%.

Product Design Mentor

[BRANDED ARCHITECTS](#) (JUNE 2024 - SEPTEMBER 2024)

- I worked with individuals new to the UI/UX design industry or with some knowledge.
- We taught mentees the design thinking process, how to perfect user research, and plan for a design project.
- Additionally, we went through design techniques, how to develop digital products that solves both business and user needs while involving all stakeholders in the process.

Lecturer

[RHIBMS](#) - BUEA (MARCH 2024 - AUGUST 2024)

- Teaching here was an opportunity for me to enhance my communication skill and knowledge sharing. I have taught courses on Graphic Designing and Digital Marketing.
- More 80% of these students succeeded in the 2025 Higher National Diploma (HND).
